

Covid-19 Update

By now, most of you are aware that golf courses are allowed to remain open during these difficult times. We wanted to let you know what Oak Harbor Golf Club is doing to keep you safe as you enjoy your round of golf.....

We currently have the clubhouse closed, open only to use the restrooms. We have all the doors propped open so you do not have touch anything on your way in or out. When you arrive to the course, please come around to the patio to check in. Cash and credit card payments are ok. We have the cart keys in disinfectant.

We have the golf carts lined up downstairs in the grass area, spread apart to maintain social distancing as required by the CDC. Each player is allowed to take his or her own cart. We have removed all the sand bottles from the carts, removed the rakes from the course, turned the cups upside down and removed the water coolers from the course.

At this time, you are allowed to bring your own food and drinks to the course. Putting and chipping greens are open, but you must bring your own practice balls. At this time, the driving range is closed.

The course will remain open normal business hours (7:am-6:00pm). We will continue to honor the senior day (\$25) and Thursday special pricing (\$28) going forward.
